PROFESSIONAL SUMMARY

Computer Science graduate with professional experience in inventory management, data analysis, reporting, and business operations. Skilled in SAP ERP, SAP Business One, Microsoft Excel, SQL, and Python. Detail-oriented and adaptable, with a track record of improving data accuracy and reducing reporting time through process and system improvements.

TECHNICAL SKILLS

- ERP Systems: SAP S/4HANA, SAP Business One (MM Module), Fixed Asset Management System
- SAP Transactions: Goods Receipt (GRPO), Goods Issue, Goods Return, Inventory Transfer
- Accounting & Costing: Landed Cost Calculation, General Ledger Posting, Cost Center Allocation
- Core Operations: Inventory & Warehouse Management, Cycle Counting, Physical-to-System Reconciliation
- Data & Reporting: Excel (VLOOKUP, XLOOKUP, Pivot Tables, Data Validation, Conditional Formatting), SQL, Python (Pandas, NumPy), Power BI, Tableau
- IT Support: Hardware Installation & Maintenance, Software Installation & Configuration, Remote Desktop Support, Troubleshooting

PROFESSIONAL EXPERIENCE

Inventory Specialist — Grepcor Diamonde Inc.

May 2026 – Aug 2026

- Managed inventory records for 3,500+ SKUs using SAP Business One, achieving 99% data accuracy across 5 warehouse locations.
- Executed daily inventory transactions, including Goods Receipts (GRPO), Goods Issues, and Transfers, ensuring correct General Ledger (GL) account coding and cost center allocations.
- Processed landed cost entries for imported and local stock (freight, duties, handling) in SAP Business One to calculate accurate inventory unit valuations and COGS.
- Built Excel reports using VLOOKUP, XLOOKUP, and Pivot Tables for inventory valuation and stock movements, cutting weekly reporting time by 2 hours.
- Performed monthly inventory audits and physical-to-GL stock variance checks to identify and resolve discrepancies.

Junior Inventory Officer — Iridium Technologies Inc.

July 2024 – April 2026

- Managed procurement and inventory master data for 400+ vendor and supplier accounts using SAP ERP (MM Module).
- Processed 150+ daily inventory transactions, including stock receipts, issues, and transfers, maintaining a 98%+ data accuracy rate.
- Reduced inventory discrepancies by 15% through weekly physical-to-system stock reconciliations and root-cause analysis.
- Developed weekly and monthly stock turnover and valuation reports in Microsoft Excel (Pivot Tables, VLOOKUP) to support executive decision-making.
- Executed annual physical cycle counts for 150,000+ stock items, reconciling physical counts against SAP General Ledger records to minimize year-end write-offs.

EDUCATION

Bachelor of Science in Computer Science — Our Lady of Fatima University | 2019 – 2023

CERTIFICATIONS

- Certified Google Data Analytics — Coursera
- Certified Google UX Design
- CSARC Certified Trainer — LEGO Robotics (LEGO Education Spike Prime)
- CSARC Certified Trainer — Minecraft Education: Introduction to Cybersecurity
